

Hello everyone!

- **Did you know it is impossible to lick your elbow?**

My name is Bradley Fang. I am your current class president and I'm running for re-election.

SUPPOSEDLY, there are RUMORS that HYPOTHETICALLY I haven't been doing anything as your class president. As some of you have said to me, "what the heck? You have to do better!"

While I haven't accomplished as much as I've wanted to, let's talk about what I HAVE done:

- We implemented a custom 2026 class design, designed by some of the greatest artists in our class
- I solved world hunger
- We made and sold lots of merch, all with our custom design on them.
- I made a substantial contribution to the oxygen cycle in our community.
- We hosted a fundraiser to sell all-occasion cards.
- I invented ChatGPT
- We are in the process of planning many more events, like bake sales and class-wide sports tournaments.

- I'm in final negotiations with Elon Musk to use the class of 2026 budget to buy Twitter
- And just moments ago, I reversed global warming. You'll see when you go outside.

I would also like to add that during my time as president, there has not been one raccoon related injury here at school.

Of course, I'm not perfect, guys. In fact, just three years ago I got an A- on a math assignment. I've said "you too" to the waiter after ordering food, on multiple occasions. And I've even been told (air quotes) that I do not use air quotes properly.

In all seriousness, guys, we need to talk about you. After all, there is no "I" or "me" in America. When YOU vote for Bradley Fang as president:

- You are voting for someone who already has an ENTIRE year of experience under his belt.
- You are voting for someone who learns quickly and can dedicate time to being your class president.
- And most importantly, you are voting for a ping pong prodigy.

Vote Fang 2024.
